

# Azza Khaled Mohamed

Flutter Developer | Mobile Application Developer

 azakhaled813@gmail.com  +20 1141087194  Cairo, Egypt

 [linkedin.com/in/azza-khaled-4b2389219](https://linkedin.com/in/azza-khaled-4b2389219)  [github.com/AzaKhaled](https://github.com/AzaKhaled)

## PROFILE

---

Flutter Developer experienced in developing cross-platform mobile applications using Flutter and Dart. Proficient in Firebase, Supabase, RESTful APIs, and Bloc/Cubit. Focused on clean architecture, performance, and scalable mobile solutions.

## TRAINING PROGRAMS

---

### Intensive Code Camp - ITI, Track: Front End Mobile and Cross Platform

Topics Covered:

- Programming (C#), OOP, DS & Algo, Database, Web (HTML/CSS, JS), Flutter(Dart, OOP)
- Operating Systems, Linux, Networking, Software Testing
- Soft Skills & Freelancing

Main Projects:

- ITI Freelancing App (Flutter)
- Netflix Website (JavaScript)
- ITI Freelancing Dashboard (Angular)

12/2024 – 06/2025  
Sohag, Egypt

### Orange Digital Center Egypt

Topics Covered:

- Programming (C++), OOP, DS & Algo, Database

08/2023  
Sohag, Egypt

### Summer Course IOT (ITI)

Topics Covered:

- Learned fundamentals of IoT systems and sensors integration
- Studied JavaScript for device interaction and control logic

09/2022  
sohag, egypt

### InnoveEgypt

Topics Covered:

- Trained in innovation, design thinking, and entrepreneurship

09/2021  
sohag, egypt

## EDUCATION

---

### Bachelor of Computer and Artificial Intelligence, Sohag University

GPA: 2.8

Graduation Project: Clothes factory system - Grade: Excellent

2019 – 2025  
Sohag, Egypt

## SKILLS

---

- |                           |  |
|---------------------------|--|
| • Dart                    | • Flutter                              |
| • RESTful API Integration | • Firebase (Authentication, Firestore) |
| • Supabase                | • State Management: Bloc, Cubit        |
| • Hive (Local Storage)    | • Payment Integration                  |
| • Map Integration         | • OOP                                  |
| • Problem Solving         | • UI/UX Principles, Responsive Design  |
| • Clean Architecture      |  |

## PROJECTS

---

|   |                   |
|---|-------------------|
| <b>Medical Service</b>   | 09/2025 – 10/2025 |
| Developed a medical appointment booking mobile application with secure online payment and push notification features. Implemented user authentication, appointment scheduling, and real-time notifications to enhance user experience. Integrated payment gateway to ensure secure transactions and reliable backend communication. |                   |
| <b>Technologies:</b> Flutter, Dart, Paymob API, Cubit (Bloc), Firebase Notifications, Supabase  |                   |
| <b>sweet-pal</b>   | 08/2025           |
| Developed a food ordering mobile application with secure authentication and payment integration. Implemented smooth checkout flow and order management with a Supabase backend. Tested and handled 80+ test orders to ensure reliable order processing and secure transactions.   |                   |
| <b>Technologies:</b> Flutter, Dart, Cubit, Supabase (Auth & Database), PayPal Integration   |                   |
| <b>E-Commerce App</b>    | 07/2025           |
| Built a full-featured e-commerce mobile application including product listing, shopping cart, and secure checkout functionality. Integrated Firebase and RESTful APIs to manage products and user data, ensuring smooth browsing and purchase experience.   |                   |
| <b>Technologies:</b> Flutter, Dart, Firebase, RESTful API, Cubit  |                   |
| <b>ITI Freelancing App</b>   | 04/2025           |
| Developed a freelancing marketplace application enabling users to browse services and manage requests. Implemented RESTful API integration and state management to handle dynamic data efficiently and improve app performance.   |                   |
| <b>Technologies:</b> Flutter, Dart, RESTful API, Cubit  |                   |
| <b>ITI Freelancing Dashboard</b>   | 04/2025           |
| Created an admin dashboard to manage freelancers, clients, and platform data. Implemented responsive UI components and data management features to support administrative operations.   |                   |
| <b>Technologies:</b> Angular, TypeScript, HTML, CSS, Bootstrap  |                   |
| <b>To-Do-List App</b>    | 11/2024           |
| Designed and developed a task management application with real-time data synchronization. Implemented user authentication and Firestore integration to ensure secure access and instant task updates.   |                   |
| <b>Technologies:</b> Flutter, Dart, Firebase, Firestore, Authentication   |                   |
| <b>Netflix</b>   | 02/2024           |
| • Built a responsive Netflix-like website with modern frontend technologies.  |                   |
| Technologies: HTML5, CSS3, JavaScript   |                   |

## CERTIFICATES

---

|   |                                     |                                   |
|---|-------------------------------------|-----------------------------------|
| <b>ICPC – Competitive programming contest</b> | <b>Orange Digital Center Egypt.</b> | <b>Flutter Development Course</b> |
| • Codeforces                                  | • C++ (Basic)                       | • Udemy                           |

## LANGUAGES

---

|                   |                         |
|-------------------|-------------------------|
| • Arabic (Native) | • - English (Very Good) |
|-------------------|-------------------------|
